rates, wages and salaries, and even your ability to go on vacation. It isn't always a bad thing, and it could aid in a blossoming economy under the right conditions.

## **What is Inflation? Inflation Causes and Effects - DollarSprout**

There are two main causes of inflation: Demand-pull and Cost-

# Get Free Inflation Causes And Effects National

push. Both are responsible for a general rise in prices in an economy. But they work differently.

Demand-pull conditions occur when demand from consumers pulls prices up. Cost-push occurs when supply cost force prices higher.

Types and effects of

Inflation In simple

terms, Inflation is a

factor that gradually

decreases the

purchasing power and

reduces the value of

money in circulation.

This means, now we

have to pay more than

earlier for goods or

services that it used to

be. Thus, I can say that

Inflation causes an

# Get Free Inflation Causes And Effects National Bureau Of Economic Research Project Reports

increase in cost and decrease in the value of money.
